

2.3 Introduction

Learning Activities

In this lesson, you will complete these activities.

1. Read "Force Vectors."
2. Complete Self Check 2.3.

Outcome

Determine horizontal and vertical components of force vectors.

Using a Scientific Calculator

In this lesson, you will need to use a scientific calculator to complete the activities. You can use a scientific calculator you own or one found online. Here are two links to online calculators you may use:
